Going Grocery Shopping

Activity 1: Making Wise Food Choices

Objective

• Determine foods to eat often, and those to limit or avoid

Materials

- "Food Frequencies" reproducible
- Store fliers with images of a wide variety of foods
- Distribute the store fliers to students and ask them to circle pictures of at least 10–15 foods. Have them include a variety of food types including fruits, vegetables, grains, proteins, dairy, and snack foods such as chips and cookies.
- 2. Distribute copies of the "Food Frequencies" reproducible. Discuss the terms at the top of the page with students, covering the following points:
 - <u>Calories</u> are units of energy that come from food. Explain to students that calories are like fuel for the body, and it's important to give it the right amount of fuel. Over time, if a person's body takes in as many calories in food as it burns
- <u>Fats</u> help the body grow new cells and absorb nutrients. The two main types of fats are <u>unsaturated fats</u> and <u>saturated fats</u>. Unsaturated fats, found in foods like avocados, nuts, and fish, are helpful for the body. Saturated fats can be found in animal products such as pork, cheese, cream, and butter, or plant products such as palm oil. They are often ingredients in snack foods like cakes and cookies. Saturated fats should be limited, but most are okay to eat sometimes. There is one exception: artificial <u>trans</u> <u>fats</u> and <u>hydrogenated oils</u>, which should be avoided as much as possible, because even in modest amounts they increase the risk of developing heart disease.
- <u>Protein</u> helps build hair, finger and toe nails, and muscles. Good sources of protein include lean meats, beans and legumes, dairy products, and plant-based foods such as tofu and tempeh.
- <u>Sodium</u> is salt. The body needs salt, but too much can raise health risks to the heart and kidneys. Salt can be added during processing, cooking, or at the table to change the way food.

D-3 General Speech and Language Development

Overview

This assessment focuses on the student's vocabulary development, complexity of speech, and ability to speak in phrases and sentences.

SKILL

Uses words and combines them into phrases and sentences to communicate

ASSESSMENT METHODS Observation or Interview

Observation or Intervi

MATERIALS

Although no specific materials are needed, toys, pictures, and puzzles may be helpful in eliciting responses from the student.

SCORING INFORMATION

- Record Book: Page 14
- Give credit for each yes response. See the specific Criteria for some skills.
- Stop after three consecutive no responses.

BEFORE ASSESSING

Review the Notes at the end of this assessment for additional information.

AFTER ASSESSING

96

- To write an IEP, use the Objective for Writing IEPs at the end of this assessment.
- To find related instructional activities, see the *BRIGANCE Readiness Activities*.

Directions for Assessment: Observation or Interview

Observe the student in a natural social setting or engage the student in a conversation that will elicit relevant responses from him/her. For each item, ask yourself the question that follows the skill, or interview the parent/caregiver to assess the student's general speech and language development.

Say: Tell me about _____'s speech. What are some words or sentences he/she uses?

To elicit additional information about specific skills, ask the question that follows the skill. Rephrase the questions as needed and make the interview as informal as possible.

NOTE

If the child has difficulty focusing on a single row, cover the other rows with blank sheets of paper.

AFTER ASSESSING

To write an IEP, use the Objectives for Writing IEPs at the end	
of this assessment.	

User-friendly page design makes it easy to navigate assessment procedures.

Directions for Assessment

This assessment is made up of three different phonological skills. For each of these skills, use the specific directions given. Administer all items.

Blends Two Words into One Word

Beginning with an example,

Say: I am going to say two words. Then I want you to say them together to make one word. For example, if I say air . . . plane, you would say airplane. Let's begin.

E-4

- 1. base ball baseball
- Say: The next words are base . . . ball. Pause for the child's response (baseball)

2. sail boat – sailboat

Say: The next words are

Pause for the child's respo

3. cup cake – cupcake

 Say: The words are cup
 This assessment focuses on the child's ability to sort objects by one, two, and three attributes.
